

On the ceiling, the easiest is to use magnets to attach things (we have some, also strong ones)

On the grey wooden wall it's possible to attach something (nails, screws etc)

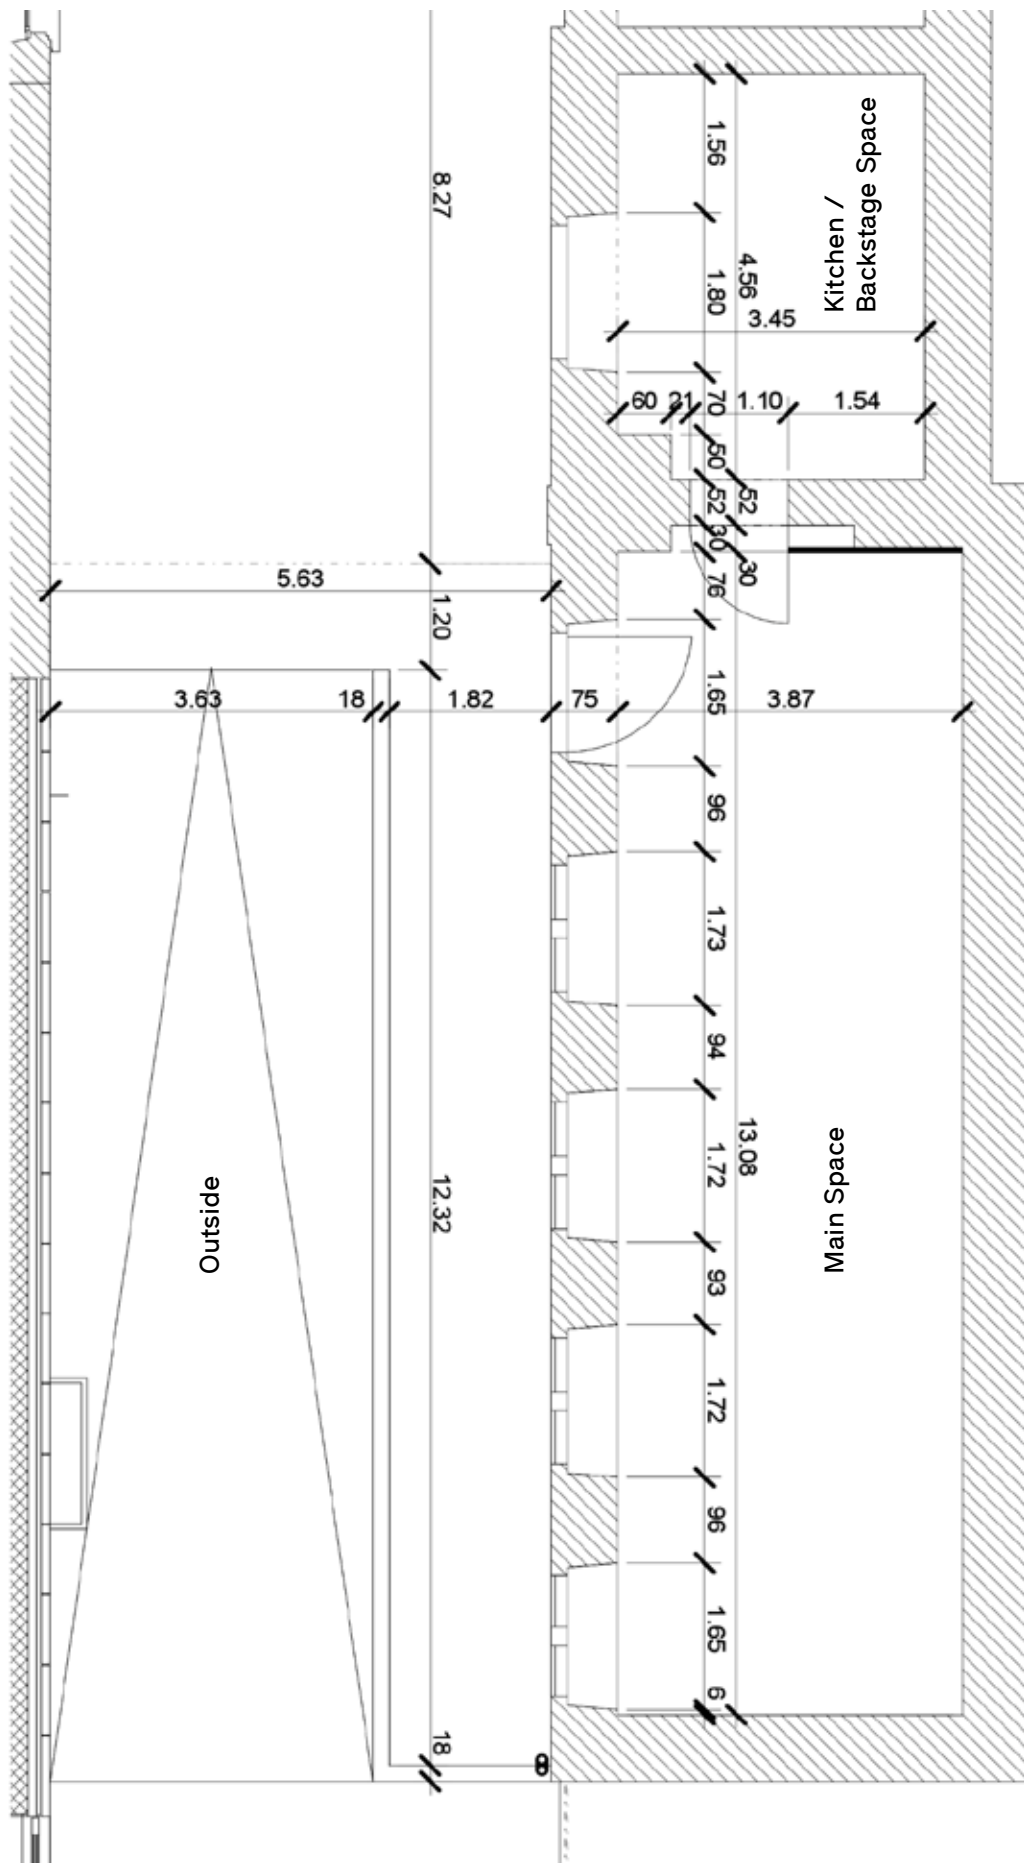

Storage- and Kitchen (Backstage) Room (possible to use as exhibition space as well)

Outside-View with the corridor towards Pasquart

The Space

Humid, dark we have some neon lights that you can put everywhere. not so warm It's possible to transform the space into a black box with blackout curtains and foam blocks. It's possible to make holes in the walls, but the walls are humid. If you make holes in the white walls, please patch and paint them afterwards. We have a dehumidifier running in the storage room!

The plugs by the windows are always on, regardless of the electricity settings. The plugs in the Backstage Room are also always active. Backstage Room: don't forget to turn off the lights manually, do not unplug the fridge ! but the hot plates and kettle should be unplugged. When you leave, please close the room with the white curtain and the metal chain.

electricity:

1 = electricity on everywhere, doors stays open

0 = electricity off on the plugs on the top of the room, !!! The door will automatically lock itself when you leave !!!!

2 = electricity is on and the door open when the Pasquart is open (Wednesday-Sunday Afternoons)
